Decision making process for exclusion decisions

Within our decision making process we're applying a general rule. Swiss real estate investment funds not establishing a sustainability report nor providing any ESG related information are excluded from the investment universe.

Consultant for investment guidelines and exclusion criteria

There's no ESG consultant mandated for investment guidelines and exclusion criteria.

Decision making process for exercising voting rights

There are several factors incorporated in our process for exercising voting rights. We consider the alignment of shareholder's and underlying invest fund's interest of great importance. In addition we're analyzing if the remuneration report is in the interest of existing shareholders and doing comparison checks with peers.

Portfolio overview

ESG rating	No
Application of an exclusion list	No

Incorporation of ESG factors into the investment process

Currently we produce an ESG overview of the whole investable Swiss real estate funds universe. The ESG factors are judged separately enabling us to determine the sustainability level of the IST portfolio.

We're analyzing public information of the respective funds. In general, Swiss real estate companies and funds are very hesitant to share ESG related information. Therefore we engage with a proprietary ESG questionnaire with the individual providers to gain insight and to motivate them to disclose detailed and measurable ESG related information.
