Investment Approach and Sustainability

IST GLOBAL SMALL MID CAPS is an investment group that is structured as a fund-of-funds. It is actively managed and invests globally in a broadly diversified selection of small and medium-sized listed companies. The weightings of the world's three most important regions track the corresponding index. The Selection of the fund managers for the individual regions is based on IST's broad best-in-class approach, which has proven its value over many years. This focuses not only on performance and risk indicators, but also on the successful and seamless integration of ESG criteria into the investment and risk control process of the external asset managers. These criteria are analyzed in a detailed Operational Due Diligence („ODD“) prior to mandating the portfolio manager and are regularly monitored onwards. Since 2013, a basic prerequisite for the award of a mandate has been the signing of the UNPRI by the portfolio manager.

As described, ESG inclusion takes place at portfolio manager level, but also at IST level. As a company, IST accepts its responsibility towards all stakeholders and has enshrined aspects of sustainability in its mission statement and corporate strategy. As an investor, IST illustrates this, among other things, by consistently exercising voting rights for its equity investments in Switzerland and abroad. This approach is supplemented by engagement where necessary. The approval of IST's ESG policy and its implementation are the responsibility of the Foundation Board Committee „Corporate Strategy & Organization“ (STRA-UO).

IST publishes its own sustainability report on an annual basis.
