

We are looking for an experienced, motivated, and self-driven Asset Manager (m/f) on a full-time basis. The successful candidate will be responsible for managing a portfolio of infrastructure assets, and working closely with our inhouse team, and collaborating with external partners to achieve the investment objectives.

We offer an exciting and broad role in a complementary and growing team of highly qualified and committed individuals who have been able to establish IST3 INFRASTRUKTUR GLOBAL as a successful market participant within a few years. The fund invests worldwide into infrastructure assets in all sub-sectors (incl. telecom, energy transmission, energy generation, social infra, water systems and transportation), with a focus on regulated or contracted cash flows. IST manages approximately CHF 10bn in AuM for around 500 Swiss pension funds through a variety of traditional and alternative investment products. IST3 INFRASTRUKTUR GLOBAL is IST's flagship infrastructure offering.

Head Asset Management Private Infrastructure Equity (m/f)

Responsibilities:

- Develop and implement asset management plans for all assets in the portfolio to track operational and financial performance
- Conduct regular assessments and analysis of all assets to identify potential risks and opportunities for improvement/ value enhancement, including the monitoring of capital structures and refinancing initiatives
- Overseeing, and leading the financial analysis (including budgeting, forecasting, liquidity management and financial modeling), monitoring and reporting for private infrastructure assets and the entire portfolio
- Monitor and manage contractual agreements, ensuring compliance with legal, HSE, lender, regulatory and other requirements
- Develop and maintain relationships with key stakeholders, including service providers, partners, co-shareholders, managers, and regulators, to ensure effective communication and collaboration
- Manage and coordinate a team of asset managers and provide leadership, guidance, and support to ensure effective performance and development
- Keep up to date with industry trends and best practices in asset management and make recommendations for improvements and changes to existing processes

Your profile:

- Minimum of 10 years of experience in asset management, specifically in the private infrastructure sector

- Proven track record of managing complex infrastructure assets and delivering strong, long-term returns to investors
- Excellent analytical and problem-solving abilities, including strategic thinking and identifying opportunities for growth and improvement, with proficiency in quantitative and contractual works
- Strong financial acumen, with experience in financial analysis and modeling
- Exceptional communication and interpersonal skills, and the ability to work effectively with internal and external stakeholders
- Demonstrated ability to manage a team of asset managers, providing effective oversight and guidance to ensure successful execution of asset management plans
- Master's degree in finance, engineering, or a related field

If you are interested in this exciting and demanding role in an entrepreneurial and dynamic work environment, please submit your resumé (incl. references, motivation letter, diploma, and a picture) electronically to Martin Ragetti (martin.ragetti@istfunds.ch). We are looking forward to receiving your application.

Please note that we will only reply to applications which fulfill the aforementioned qualifications and criteria.
